International Day Against Drug Abuse and Illicit Trafficking – 26th June 2025

MNS University of Engineering & Technology (UET), Multan, organized an awareness event on 26th June 2025 to observe the International Day Against Drug Abuse and Illicit Trafficking. The event aimed to raise awareness among students and staff about the harmful effects of drug abuse and the importance of preventing illicit drug trafficking. The program began with the recitation of the Holy Quran, followed by a Naat. A speech session was then conducted in which speakers highlighted the importance of combating drug abuse. The Honorable Vice Chancellor also led an awareness walk to promote a drug-free society. Prizes were distributed among the speech competition participants in recognition of their efforts and contributions. The event concluded with a special prayer led by the coordinator for the well-being and prosperity of society. Overall, the event successfully promoted awareness, encouraged students to play their role in preventing drug abuse, and emphasized the importance of building a healthy and drug-free society.

Subject: **Appeal to help in saving the lives of Thalassemic Patients**

I hope this letter finds you in good health. I am approaching you for help in a noble cause. FATIMID FOUNDATION is a registered trust providing free blood transfusion and medicines to poor children suffering from blood diseases of THALASSAMIEA and HAEMOPHILIA since 1978. We are providing our underprivileged sick children patients free of cost blood and blood product transfusions and medical assistance through our Centres located in Karachi, Lahore, Peshawar, Multan, Quetta, Hyderabad, Tando Allahyar and Khairpur.

The Multan center is looking after patients of South Punjab. Life of Thalassamiea patients is endangered if they do not receive Blood Transfusion after every two weeks. We are experiencing acute shortage of blood now a days.

I will request you to help us in arranging Blood Donation Camp in your University to collect blood from those willing donors who are desirous to donate. Donors will be given their blood test reports and certificates as well. This donated blood will infuse life in the real needy and deserving patients and reduce their worries of Blood to an extent.

Following tests of donors will be conducted and proper report will be given to them.

1. Test before bleeding screening of Hepatitis B& C (Devices Method), HB% Level
2. Test in Lab after bleeding Hepatitis B & C, HIV (Elisa Method), MP, VDRL, Blood Group

We sincerely hope and pray that our request will meet your prompt and sympathetic consideration.

With warm and my personal regards,

The Worthy Vice chancellor is
They want to visit on 6th October, 2025
You are requested that may allow
to arrange Blood Donation Campus at University.
